

**\*Disclaimer\***

Many people find Crystalline Rainbow Reiki beneficial and helpful; and I have yet to come across any person who has claimed detrimental experiences. However, it is up to you to decide if it is right for you. The session takes place between your Soul and Creator-Self or whatever you call your Higher Power. I only facilitate the session by acting as a vehicle for the energy to be transmitted. Therefore, by submitting to me a request for a session, you agree to receive energies from Creator-Self, through me, and assume all responsibility and liability for the results of the session. It is recommended that you continue to receive guidance and services from your regular health care provider, using Crystalline Rainbow Reiki to compliment contemporary medicine.
